

Ricardo Vieira

Ricardo Vieira is a researcher at the Instituto Superior Técnico and of the Information Systems Group at INESC-ID – Research and Development Institute for Systems and Computer Engineering. He is also a Ph.D. student in Information Systems and Computer Engineering at the Instituto Superior Técnico (IST), Technical University of Lisbon working in the field of Risk Management. Ricardo Vieira is a member of the DLM Forum Executive Committee where he serves as Vice Chair. He was previously Secretary (June to

November 2014) and Director (October 2013 to June 2014). He was a member of INCOSE - The International Council on Systems Engineering. He contributed to the formal public review of MoReq2010 during the concept consultation (summer 2010) and the MoReq2010 draft consultation (winter 2010/2011). Ricardo Vieira holds a M.Sc. in Information Systems and Computer Engineering from IST (2009) where he specialized in software engineering and distributed systems. As part of his M.Sc. program he also spent a full semester at KTH Royal Institute of Technology in Stockholm, Sweden.
