Final Programme

DLM Forum Members Meeting and Annual General Meeting

31st May – 1st June 2018

Tallinn, Estonia

Members of the DLM Forum Foundation meet for a two-day members' meeting twice a year in spring and autumn, in order to exchange experiences and ideas on current trends of establishing comprehensive information governance over digital records. This meeting is kindly hosted by the National Archives and the Ministry of Economic Affairs and Communications of Estonia. Participating in the meeting with experts from industry, government and archives with similar responsibilities in Information Governance is an exceptional networking opportunity and a highly rewarding event both personally and professionally.

DLM Members are invited to both days of the event, and the professional community is invited to the second day.

Please register via the [registration site](#)

If you have any questions, please contact Ms Beatrix Horvath at secretariat@dlmforum.eu

See you in Tallinn!

Tallinn and Estonia are at their best during spring. Nights are short and flowers blossom. If you plan to spend a long weekend in Tallinn, it may be of interest you that during the same weekend Tallinn Old Town Days take place which bring along many festivities and concerts. When time comes closer, the precise program will be on the [festival's website](#) (but you can get an idea when looking at the last year's program, too).

If you are interested in visiting the new main building of the National Archives of Estonia in Tartu on the previous day (May 30th), please notify Lauri Leht (Lauri.Leht@ra.ee). This new building was opened in beginning of 2017. The Estonian Association of Internal Architects recently announced that the new archives Building has the best interior design amongst all new buildings opened in Estonia in 2017! Tartu is 2,5 hours of bus drive from Tallinn and there are many direct buses from Tallinn airport to Tartu.
