

DLM Forum Members' Meeting in Oslo 3-4 May 2022

The National Archives of Norway is pleased to invite the members of the DLM Forum to the members' meeting in Oslo 3 – 4 May 2022.

The National Archives of Norway is focusing on the need for innovation and radical changes in how we carry out our mission in order to be relevant in the future. We have identified two main priority areas for the next five years: Archiving by design, and the joint national platform “The Digital Archive for long-term preservation and making available historical data and archives”. The National Archives sets all priorities based on these two initiatives. The DLM forum offers a great opportunity for co-operation in the fields of innovation and development.

The Norwegian capital, Oslo, is one of Europe’s fastest-growing cities. International media is constantly writing about Oslo’s innovative architecture, museums, and neighbourhoods, as well as everything that moves in the food, fashion, art, and music scenes. Oslo is a green city and was awarded the prestigious title of “European Green Capital” in 2019. More than half of the municipality of Oslo is covered by forests and parks, and the fjord extends all the way to the city centre.

Venue for the meeting

The DLM Forum Members’ Meeting will be held in Oslo on 3-4 May 2022 at the National Archives of Norway. The address is Sognsveien 221. The building is situated on the outskirts of the city, bordering forests and recreation areas.

The National Archives is easily reached by the metro. Line no. 5 has its final stop at Sognsvann where the National Archives is situated. The metro takes about 20 minutes from the city centre to Sognsvann. For timetables and information about how to buy tickets, please [follow this link](#).

Travel from the airport

We recommend going by train from the airport to the city centre. It takes about 20 minutes. There are two train companies operating the line, [Airport Express \(Flytoget\)](#) and [Vy](#). Please note that Vy is significantly cheaper than the Airport Express, but the coaches might be more crowded in peak hours.
