

DLM FORUM TRIENNIAL CONFERENCE  
23-25 October 2023, Salamanca

KEEPING AND CONNECTING: DATA IN THE DIGITAL SOCIETY

**CALL FOR PAPERS (Deadline September 15<sup>th</sup>)**

### **SUBTOPICS**

**1. HARVESTING SOCIAL MEDIA CONTENT**

This topic would include both technological developments for harvesting this content as well as the "why" aspect of harvesting social media

**2. AI, ARCHIVAL SALVATION OR DOOM?**

AI is everywhere and GPT can act in a very human way. Midjourney generates photorealistic visualization that is difficult to distinguish from professional photographer shoots. This topic would include the utilization of AI in benefits of archives

**3. ARCHIVAL TECHNOLOGIES**

Preservation technologies, storage, etc.

**4. DIGITAL HUMANITIES**

The softer side of archives

**5. ARCHIVAL CONTENT IN USE (RESEARCH, DH, BUSINESS CASES, ETC.)**

Actual case presentation where archived data has been successfully utilized

**6. DIGITIZATION PROCESSES**

How archives are being digitized, incl. a relation to time machine & mass digitization.

Please submit your contribution to [secretariat@dmlforum.eu](mailto:secretariat@dmlforum.eu) by September 15<sup>th</sup> using the extended abstract form available [on our website](#).
